**BORE!**

**These decorations  
have been made  
using our Laser  
Cutter...**

**Why not try the  
paint in your Box to  
decorate them?**

**There is also some  
string you can use to  
hang them up.**

paper  
marbling

# paper marbling

## instructions

1. Firstly, marbling can get messy, so don't wear your best clothes. (An apron wouldnt be a bad idea).
2. Half fill a basin or plastic tub with water.
3. Either straight from the bottle or with the dropper tool, drip your marbling inks onto the surface of the water in the basin. (It is oil based ink so it will float.)
4. Try using the the comb, bamboo sticks or the dropper to make patterns in the marbling ink.
5. When you have finished your pattern, place a sheet of paper on top of the water, then carefully remove and leave to dry.

1. marbling inks
2. bamboo sticks
3. comb
4. dropper

# Homemade Festive Garland

**In the Box:**  
6 A5 sheets of metallic card  
String  
Glue stick

**You will need:**  
scissors or a craft knife or a guillotine.  
Food dye or paint and a cup.

6 sheets can make up to 3 garlands of cut out shapes or words. This could be used to decorate your room, door or somewhere in your home.

This card is really nice to try large bold shapes or smaller ones.

Using a pencil try drawing into the card, you will notice this makes a nice indent for you to then cut around.

It is important when drawing words or text that you draw this out on the shiny / front side of the card so that the letters don't come out back to front!

Try: layering two or more colours together on top of each other.

I have made sure to make some well placed holes for your string to thread through. Make sure to cut a hole big enough with plenty of room or the card may rip, you can strengthen this with some tape on the back before you cut the hole through.

You will see I have dyed my string purple and red, this is your choice to keep your string in its natural colour or try to colour it in a cup or bowl with a bit of water and either food dye paint mixed together for 10 mins.

When you are ready take the string outside in the bowl and hang this over something to dry but make it something that won't stain like a wall, pipe or fence.

Once you are happy with your shapes and you have your dry string you can start to thread your shapes on to the string starting with the shape you would like in the middle of the garland and then using the ends either side to thread on the decorations you would like on either side of the your main/ centre shape or decoration.

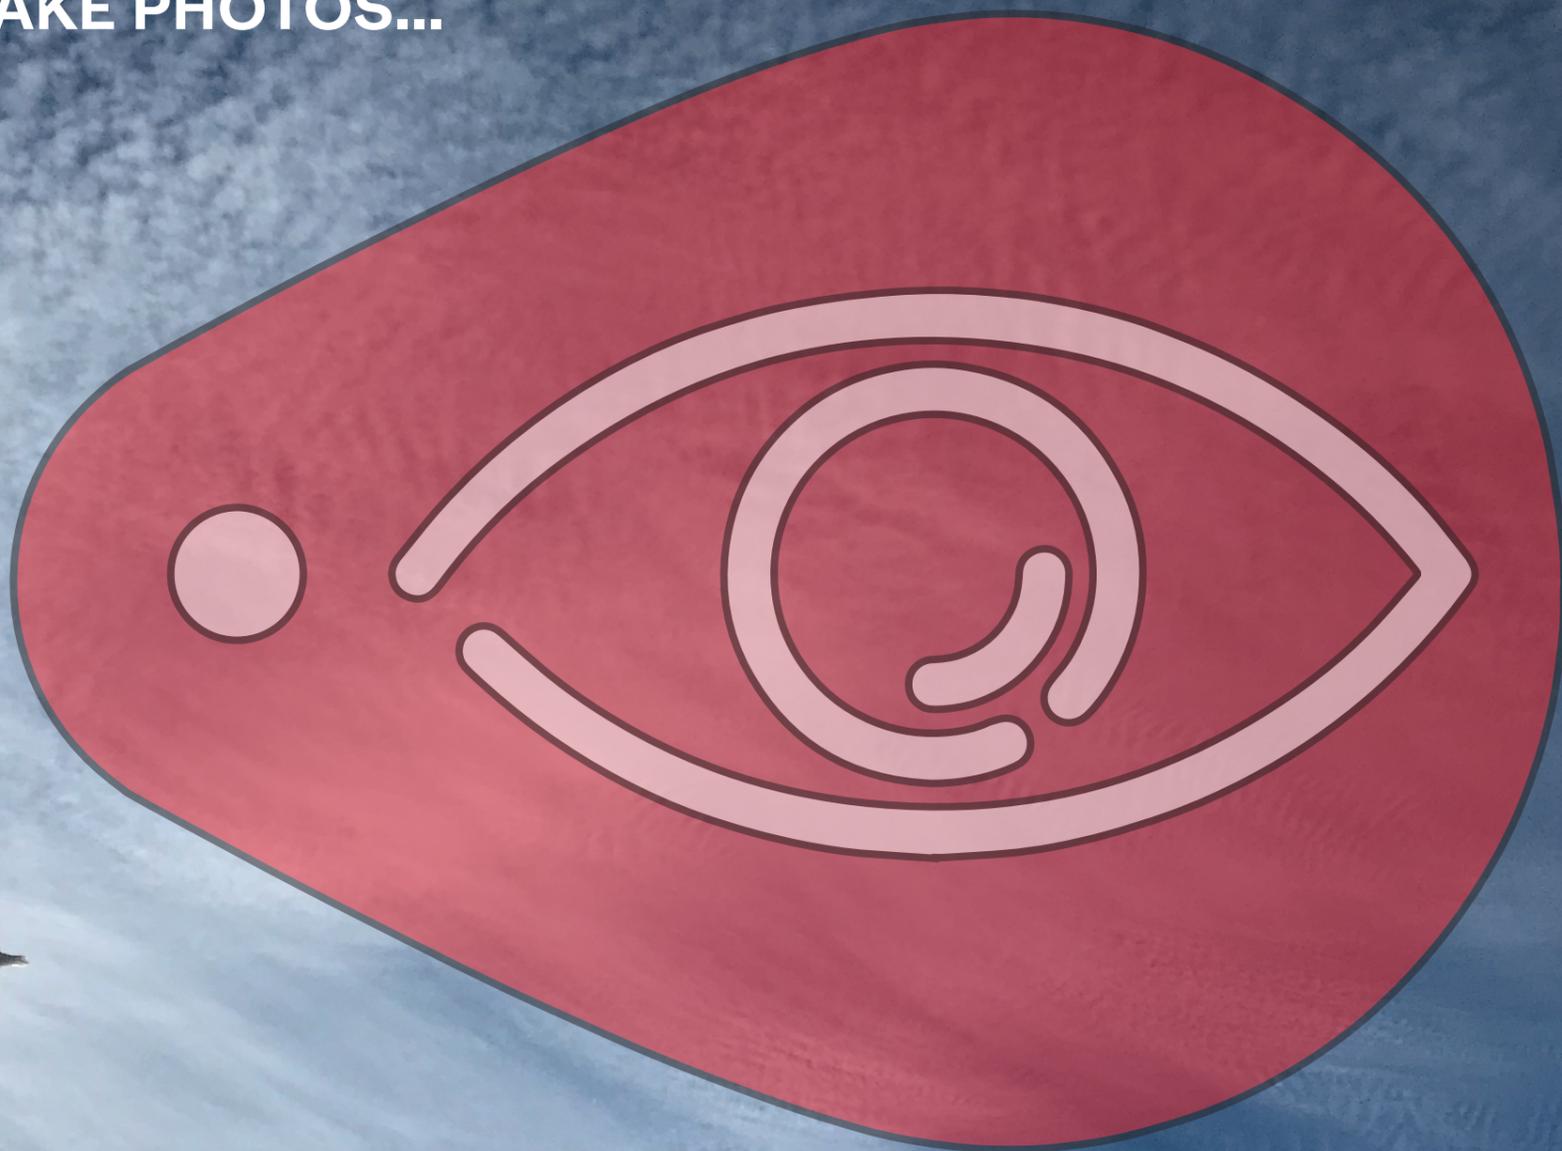

**EXPLORE THE WORLD THROUGH YOUR NEW EYES...**

**GO OUTSIDE**

**WHAT DID YOU FIND?**

**TAKE PHOTOS...**

**WRITE A POEM...**

**SKETCH...**

**DID YOU SEE ANYTHING YOU'D NEVER NOTICED BEFORE?**

SEE-

what if the sky was red?

INGTH-

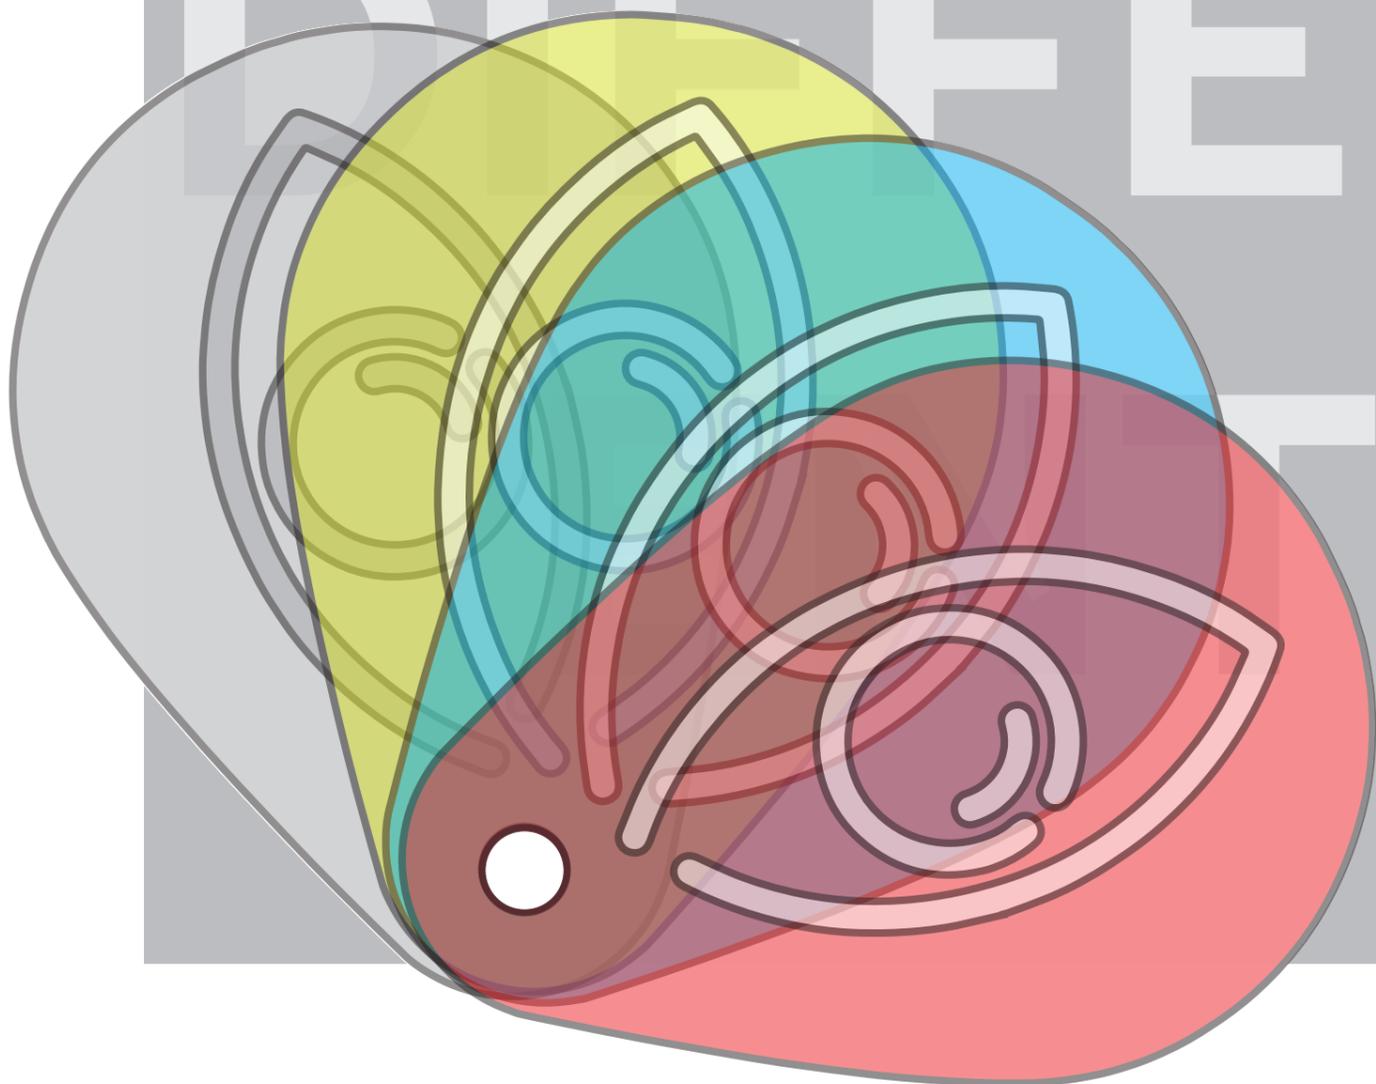

or the grass was blue?

INGS-

what would you do?

DIFFER-

ELY

**The materials in this pack are to help you complete the activities.**

**But feel free to use the however you want.**

**Get creative...  
Think outside the box.**
